

Gisela Carballo

Frontend Developer | React · TypeScript · JavaScript · UI/UX

Barcelona, Spain · +34 634 278 046 · giselacarballour@gmail.com · giselacarballo.vercel.app · linkedin.com/in/giselacarballourquidi

PROFESSIONAL SUMMARY

Frontend Developer with experience building web interfaces and applications using React, TypeScript, JavaScript, HTML, and CSS, as well as projects in WordPress and Elementor. My background in Art History brings visual sensitivity, creativity, and attention to detail, which I apply to building functional, attractive, and easy-to-use interfaces.

PROFESSIONAL EXPERIENCE

UI Designer & Frontend Developer — B Travel Services (Secret Barcelona), Rennes, France

April 2026 – Present · Internship (April–June 2026), paid collaboration since June 2026

- Redesigned and developed 5 web pages for a multilingual travel agency (French, Spanish, and English), serving markets in Spain, Portugal, Morocco, and the United Kingdom.
- Built and implemented web pages using WordPress, Elementor, and custom CSS.
- Optimized on-page SEO for images by configuring alt attributes, improving accessibility and site indexing.
- Developed responsive interfaces adapted to different devices and screen sizes.
- Integrated interactive elements and simple animations to improve the user experience.

Web Development & UI Intern — Baci d'Angelo, Barcelona

September 2024 – November 2025

- Reviewed and functionally tested all catalog pages by category, identifying issues such as forms that failed to load correctly.
- Proposed layout and interface improvements to make navigation easier for users.
- Supported the optimization of digital content, copywriting, and basic SEO positioning.

FEATURED PROJECTS

Erova — Digital Wardrobe App

Team project (5 people: 2 design, 3 development) · React · React Native · Firebase · Git · GitHub

- Took part in defining the app's architecture and developed most of the screens: login, sign-up, preferences, body type, wardrobe, navigation (community access, add garment, chat, profile), filters, calendar, accessories, and saving/editing outfits.
- Implemented the logic for detecting and classifying garments in carousels (tops, bottoms, and footwear) from full-body photos.
- Resolved Git conflicts when merging teammates' branches into the main branch.
- Collaborated weekly in design feedback sessions with a mentor, following an Agile (Scrum) methodology.

Planeo — Planning Web App

Team project (4 people) · React · TypeScript · GSAP · Framer Motion · planeo.vercel.app

- Developed and implemented the interface with React and TypeScript, including adjusting and refining screens created by other team members, such as login and sign-up.
- Implemented animations and transitions to improve user interaction.
- Developed a responsive interface adapted to different screen sizes.

EDUCATION & ADDITIONAL TRAINING

Python Programming Fundamentals — La Salle URL

February 2026 – March 2026

Mobile App Development — Apps Factory (Aspasia)

February 2025 – November 2025
